runway

DISCLAIMER

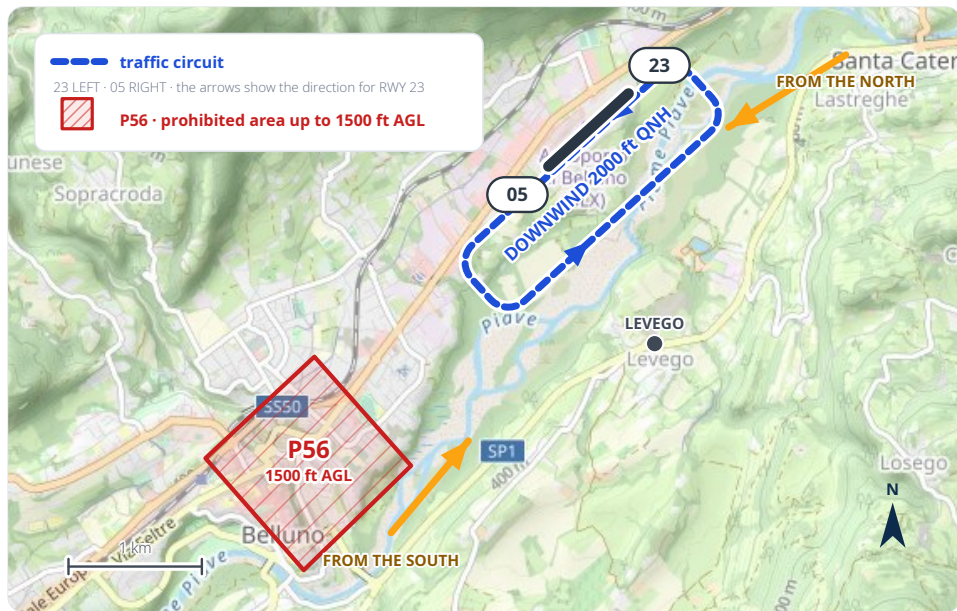

The official source of information about LIDB remains AIP Italia (LIDB AD 2) and the NOTAM in force. This leaflet does not replace them and is not for operational use: it is meant for pilots who do not know the airfield and want to arrive prepared. The charts are not navigation charts.

ICAO / IATA code	LIDB · BLX
ARP coordinates	46°09'59"N 012°15'00"E
Elevation	1240 ft · 378 m
Runway	05 / 23 · 812 × 42 m · grass
Declared distances	TORA · TODA · ASDA · LDA 812 m
Traffic circuit	05 RIGHT · 23 LEFT
Radio	Belluno Radio 119.655 MHz channel assigned to General Aviation and the aero club: not an ATS service
Flight information	Padova Information 126.425 · 124.150 0700–2100 LT · outside hours
Traffic	VFR only · class G · Milano FIR
Flights accepted	national and EU · no extra-EU
Before landing	ALWAYS CALL FIRST

THE AIRFIELD

redrawn from OpenStreetMap and Jeppesen chart LIDB 19-2 · not for operational use

OpenStreetMap base - circuit and P56 from the Avioportolano chart LIDB (BL05), AIRAC 2026-08 - not for operational use

DOWNWIND 2000 ft QNH

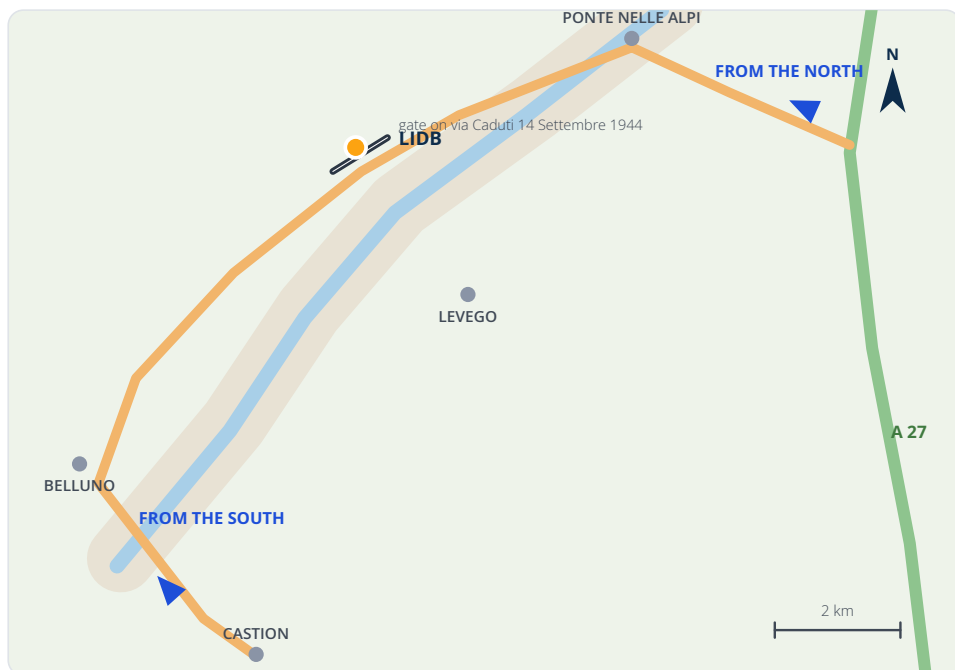

left-hand for RWY 23, always South-East
over Levego, beyond the Piave

P56 · PROHIBITED AREA

over the town of Belluno, to the South-West
from the ground up to 1500 ft AGL

HOW TO JOIN

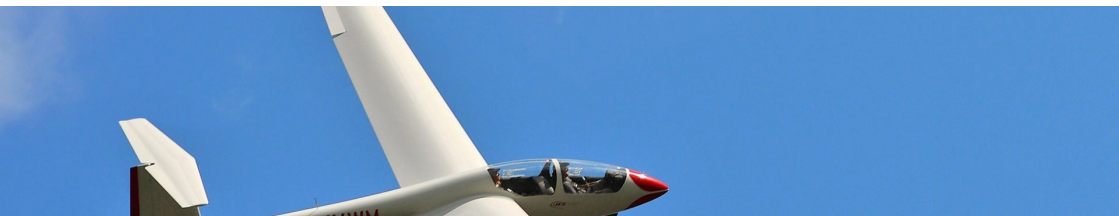

- Preferred landing on RWY 23, LEFT-hand circuit. On RWY 05 the circuit is RIGHT-hand: it is the same pattern flown the other way round, and it stays South-East.
- The circuit for both runways is South-East of the field, beyond the Piave river, at 2000 ft QNH on downwind. NEVER to the north-west: the town and Monte Serva are on that side.
- Over the town of Belluno area P56 is PROHIBITED from the ground up to 1500 ft AGL: do not overfly it.
- FROM THE SOUTH come up the Piave valley from the south-west, east of P56, and overfly Castion: from there either continue on downwind for RWY 23, or join base for RWY 05.
- FROM THE NORTH fly a straight-in final for RWY 23, or join the right-hand downwind for RWY 05.
- Belluno Radio 119.655 MHz is an aero club station, not an ATS service: always call, but do not count on an answer. If nobody replies, identify the other traffic and proceed at your own discretion.

redrawn from the satellite view of the airfield · not for operational use

BY CAR

- From the North: leave the A27 motorway, then Ponte nelle Alpi and the main road to Belluno.
- From the South: through Castion.
- The address for your satnav is Via Caduti 14 Settembre 1944, 32 – Belluno. The entrance gate is on that road.
- By train: Belluno station, then taxi or bus. It is a few minutes away.

AT THE FIELD

Aeroplanes, three-axis microlights, gliders, parachutes and paragliders all fly here, and training activity is intense especially on holidays. On arrival, watch for gliders and parachutists: drops go up to 10000 ft overhead the field.

NORTH OF THE FIELD

Along the Longarone – Belluno valley, at the foot of Monte Serva, HEMS helicopters fly frequently to and from Belluno hospital. Paragliding takes place in the same area, and the Monte Serva Nord firing area reaches 5100 ft.

OBSTACLES

At Funes (Belluno, 46°10'40"N 012°23'00"E) wire ropes up to 40 m / 132 ft AGL: they are NOT marked and are a danger to overflying aircraft.

ON THE GROUND

High-visibility jacket, ask at the office. Cars on the airfield keep to 30 km/h. On foot, walk along the edges, no phone in your hand, and never approach a running aircraft or anyone refuelling. When in doubt, ask: it is the simplest thing.

Days of operation

closed on MONDAY

Tuesday to Sunday

Office and staff on the field

local time

8.00–12.00 · 14.00–18.00

Fuel

road filling station 500 m away

AVGAS 100LL

Fire fighting, bar and restaurant

YES, at the field

FLIGHT PLANS

There is NO ARO at the field. The only office to be used is ARO/CBO ITALY in Rome, available H24: tel +39 06 79811011, fax +39 06 79086500, arocbo.lirf@enav.it, AFTN LIRFZPX.

CUSTOMS AND IMMIGRATION

For EU flights and for domestic flights operated by aircraft registered outside the EU, with prior notice: 12 hours from Monday to Friday; by 1100 on Friday for Saturday and Sunday.

dogane.treviso@adm.gov.it · dogane.treviso.sedico@adm.it

OTHER

The airfield is usable all year round. Covered hangarage is NOT available, except for special needs and on request: your aircraft stays outside. Simulated emergency exercises on the first day of every month, 0900–1100.
